

GAR-KITS™

PACK IT: First start off by Grinding up your flower and start to pack it into your kit. Make sure the skewer is in place.

SLAP IT: Slap on your favorite Concentrates around the roll. This will make it extra potent and burn extra slow.

PLUNGE IT: Then Start to Smash it down with the Plunger. Make sure to put flower in a little at a time and Plunge it down Tight in the beginning and throughout. And keep adding and plunging until its filled up.

WRAP IT: Wrap it around your favorite Wrap. And use GLUEGAR rolling glue to Seal it Tight: wraps, leaf, papers etc...

CURE IT: Store it in the Freezer for minimum 2 hours, up to 24 hours for best results. This will help the compressed Flower stick together and not to the kit, it will also not let it Expand onced Rolled.

TIP IT: Get the right Wood Tip and TIP IT. As you place the tip rotate it in the same direction as the SEEM to not unwrable.

(Look Below for proper Tip sizes)

OPEN IT: Remove the Rings by twisting them to the flat side in alignment with the Kits Flat sides and pulling them out. This will allow the kit to be opened.

PULL IT: Pull out the skewer. Press your finger against the tip and Slowly rotate back and forth and pull out gently as to not break the flower.

REMOVE IT: Carefully and slowly pull the kit apart, and Remove the ROLL from the KIT.

ENJOY IT: Grabs some Friends, Spark IT, and ENJOY
